

# FORMAT Software Service GmbH

**Moving. Growig. Personal.**

Automated processes and transparent supply chains through intelligent software solutions for foreign trade, customs and shipping processing – **made simple.**

## Scope of services

We help you to manage the processes along your value chain more efficiently.

To do this, we rely on qualified employees in development, consulting, customer service and sales for our customs, foreign trade and shipping solutions.

Our experts develop software solutions that optimise your processes in this complex, rapidly changing environment. We always keep an eye on new requirements due to changes in legislation.

This means for you: Your work is **made easy.**

## Software solutions

Our software solutions are modular and can be optimally integrated into your existing IT environment.

Experience a smooth start-up and choose the licence model that suits your company: ASP, hosting or licence purchase.

For the optimal use of our products, we are happy to train your employees and are always by your side with our customer service.

Dreieich,  
Hessen

Feuchtwangen,

## IT security

We guarantee the security and availability of our products with our own FORMAT computer centres at two sites in the Rhine-Main area.

Here, we secure your data to the highest degree with our redundant systems and strict GDPR compliance.

## Partnerships

Through this collaboration, we all benefit – from pooled knowledge and diverse competencies.

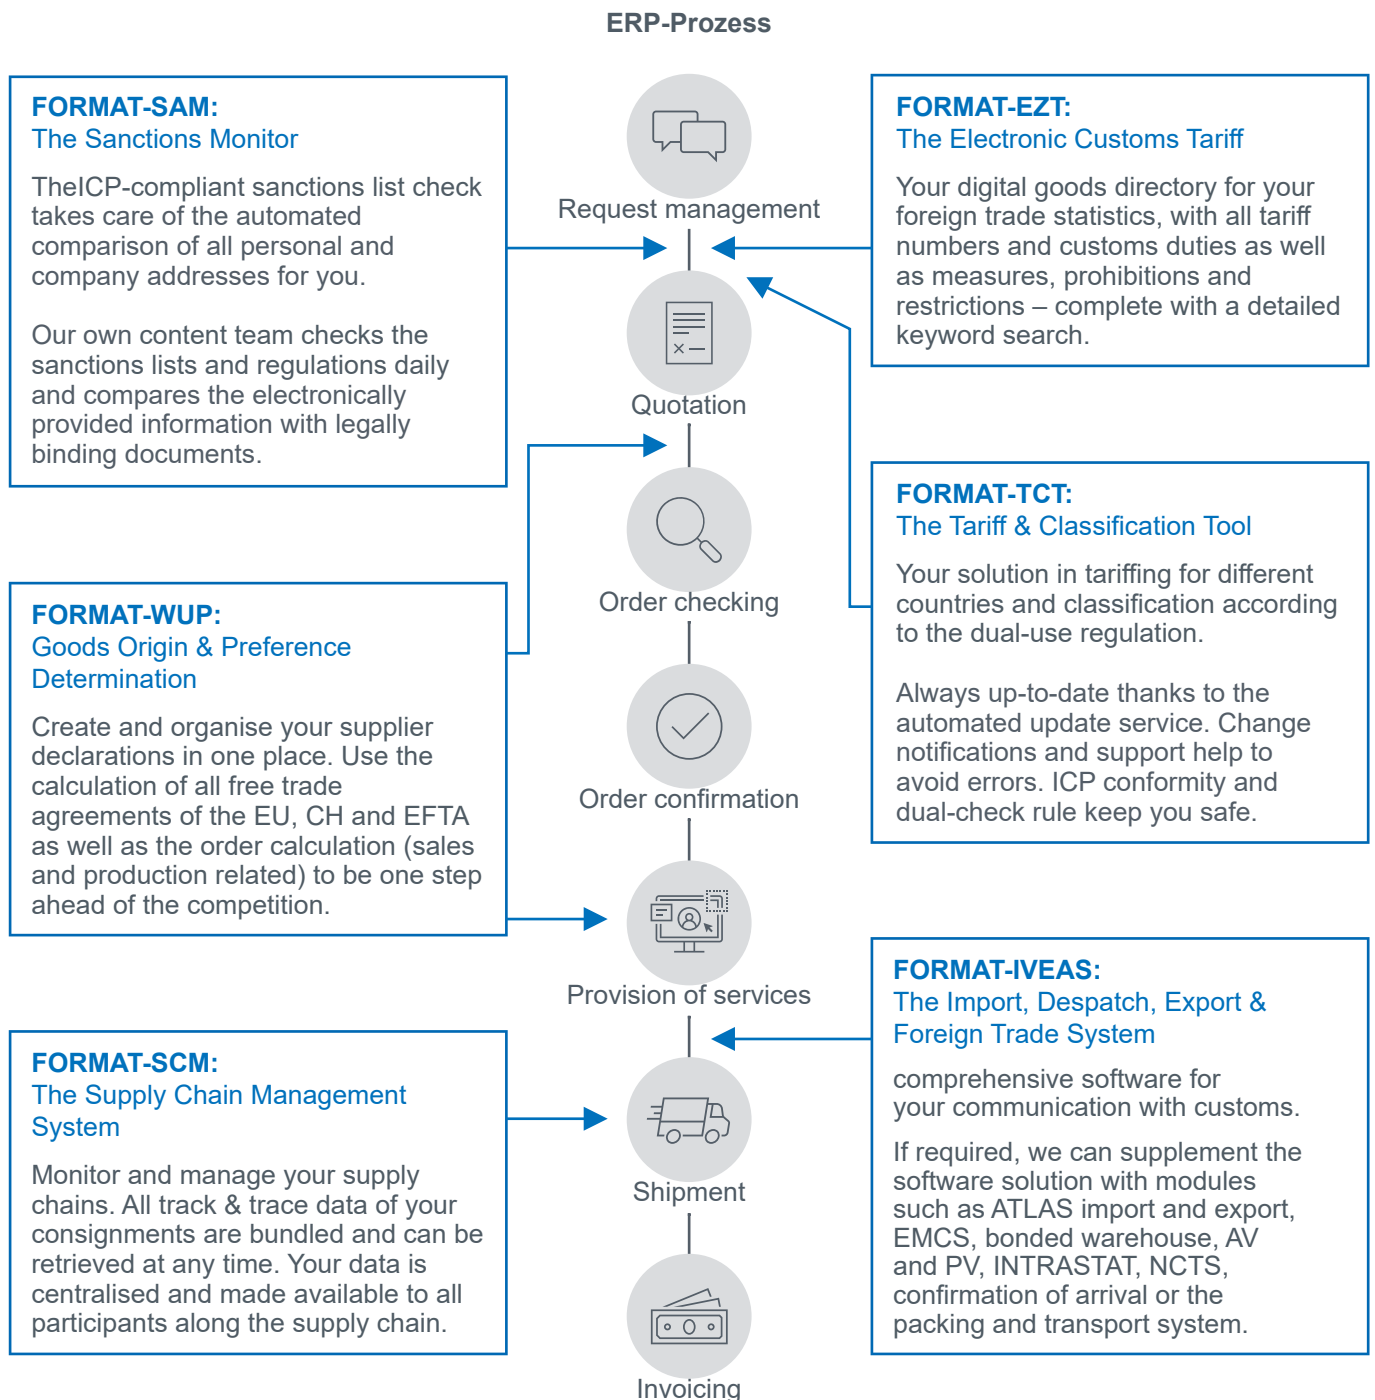

Together with our ERP partners, we develop intelligent solutions and realise diverse projects.

## Memberships

# Intelligent solutions take hold

Software solutions for all your export, customs clearance and shipping needs

Our software is certified
